

# **Stellar Phoenix Mailbox Exchange**

**Recovery 8.0**

# Overview

**Stellar Phoenix Mailbox Exchange Recovery** offers a complete solution to recover corrupt MS Exchange database files.

The software recovers corrupt EDB files and restores all its content such as e-mails, attachments, contacts, calendars, tasks and journals. **Stellar Phoenix Mailbox Exchange Recovery** scans and extracts data from a corrupt EDB file, recovers it and then saves it in PST, MSG, EML, HTML, RTF and PDF format.

After recovering the mailbox file, the software shows its original content. All folders from the original EDB file are shown along with their content in a three-pane structure.

## Key features of Stellar Phoenix Mailbox Exchange Recovery:

- Support for MS Exchange Server 2013.
- Search particular mails from the repaired file.
- Added support for conversion of archive mailboxes.
- Repair multiple EDB files.
- Save repaired data in HTML, RTF, PDF formats.
- Export recovered file to an Exchange Mailbox.
- User-friendly and secure software.
- Saves repaired Exchange database (EDB) file as a PST, MSG and EML file.
- Supports repairing of PUB.EDB files.
- Selective repairing of user mailboxes.
- Supports MS Office 2016, 2013, 2010, 2007, 2003.
- Supports MS Exchange Server 2016 / 2013 / 2010 / 2007 / 2003 / 2000 / 5.5.
- Provides preview of mailboxes and mailbox items such as - Emails, Contacts, Calendar, Notes, Sent items etc.

- Compatible with Windows 10 / Windows 8.1 / 8 / Windows 7 / Windows Vista / Windows Server 12 / Windows Server 8.

## Installation Procedure

Before installing the software, check that your system meets the minimum system requirements:

### Minimum System Requirements:

- **Processor:** Pentium Class
- **Operating System:** Windows 10 / Windows 8.1 / 8 / Windows 7 / Windows Vista / Windows Server 12 / Windows Server 8
- **Memory:** Minimum 1 GB
- **Hard Disk:** 50 MB of Free Space
- **MS Outlook:** 2016, 2013, 2010, 2007, 2003

To install the software, follow these steps:

- Double-click **StellarPhoenixMailboxExchangeRecovery.exe** executable file to start installation. **Setup - Stellar Phoenix Mailbox Exchange Recovery** dialog box is displayed.
- Click **Next. License Agreement** dialog box is displayed.
- Choose **I accept the agreement** option. **Next** button will be enabled. Click **Next. Select Destination Location** dialog box is displayed.
- Click **Browse** to select the destination path where the setup files will be stored. Click **Next. Select Start Menu Folder** dialog box is displayed.
- Click **Browse** to provide path for program's shortcuts. Click **Next. Select Additional Tasks** dialog box is displayed.
- Choose the check boxes as per your choice. Click **Next. Ready to Install** dialog box is displayed.
- Review the entries. Click **Back** if you want to change them. Click **Install** to start installation. The Installing window shows the installation process.
- After completing the process, **Completing the Stellar Phoenix Mailbox Exchange Recovery Setup Wizard** window is displayed. Click **Finish**.

**Note:** Clear **Launch Stellar Phoenix Mailbox Exchange Recovery** check box before clicking **Finish** to prevent the software from launching.

## Ordering the Software

Click <http://www.stellarinfo.com/edb-exchange-server-recovery.htm> to know more about **Stellar Phoenix Mailbox Exchange Recovery**.

To purchase the software online, please visit <http://www.stellarinfo.com/email-repair/edb-recovery/buy-now.php>

Alternatively, click **Order** icon in **Help Menu** on **Menu Bar** to purchase the software online.

Select either of the methods given above to purchase the software.

Once the order is confirmed, a serial number will be sent to you through e-mail, which would be required to activate the software.

## Registering the Software

The demo version is just for evaluation purpose and must be eventually registered to use the full functionality of the software. The software can be registered using the Registration Key which you will receive via email after purchasing the software.

### To register the software:

1. Run demo version of **Stellar Phoenix Mailbox Exchange Recovery** software.
2. On **Registration** menu, click **Register** option. *Register* dialog is displayed as shown below.

3. choose 'I don't have the registration key' (Use this option if you have not purchased the product) or select 'I have the registration key' (Use this option if you have already purchased the product).

### To register the software, when you do not have a registration key, follow the steps given below:

1. In the *Register* dialog, select '**I don't have the registration key**' option. Click **OK**, to go online and purchase the product.
2. Once the order is confirmed, a Registration Key will be sent to the email provided at the time of purchase.
3. In the *Online Registration* dialog, type the **Registration Key** and click **Register** button (Please ensure that you have an active Internet connection).

4. ' *Activation Completed Successfully* ' message is displayed after the process is completed successfully. Click **OK**.

**To register the software, when you have a key, follow the steps given below:**

1. In the *Register* dialog, select '**I have the registration key**' option.
2. You can choose either 'Online Registration' (Use this option to register the software over Internet) or 'Offline Registration' (Use this option to register the software manually / through e-mail if for any reason, Internet connection is unavailable).

- **Online Registration**

Online Registration is possible only when an active Internet connection is available.

- **To register the software online:**

1. From the *Register* dialog, select **Online Registration**. Click **OK**.

2. An **Online Registration** dialog box will appear.

3. Type the **Registration Key** (received through email after purchasing the product) in the field of Registration Key. Click **Register**.

4. The software would automatically communicate with the license server to verify the entered key. If the key you entered is valid, software will be registered successfully.

### Offline Registration

Offline Registration enables you to register the product when your computer does not have an Internet connection.

- o **To register the software offline:**

1. From the *Register* dialog, select **Offline Registration**. Click **OK**.

2. An **Offline Registration** dialog will appear displaying **Registration ID** in its respective field.

3. To get your License Key, which is required to register the software manually, you need to mail the listed **Registration ID** to [support@stellarinfo.com](mailto:support@stellarinfo.com).
4. A License Key will be sent to your email address after verifying the Registration ID and purchase details by *Stellar Technical Support*.
5. After receiving the License Key, open **Stellar Phoenix Mailbox Exchange Recovery**. In *Register* dialog, select **'I have the registration key'**.
6. Select **Offline Registration** and click **OK**.
7. Enter the **License Key** received through email in the field of License Key.

8. Click **Register** to activate the software. A confirmation message is displayed if a valid key is entered. Click **OK**.

# Transfer License

**Stellar Phoenix Mailbox Exchange Recovery** allows you to transfer the license of the registered software to another computer on which you want to run the software with full functionality. This operation deactivates the product on your current computer so it can be reactivated on the new computer.

**To transfer a software license from one computer to another, please follow the specific steps below:**

## On Target Computer:

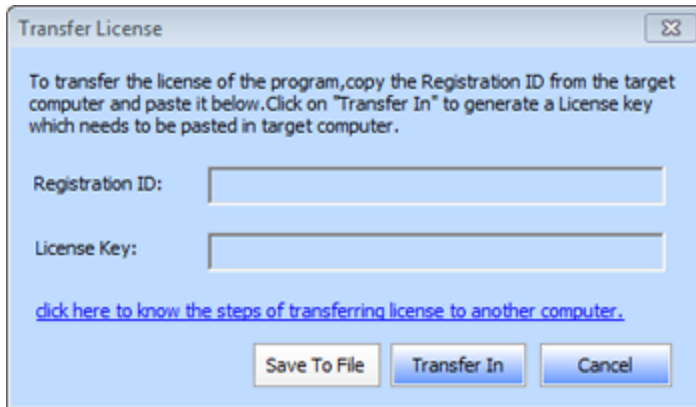

1. Run demo version of the software.
2. In **Registration** Menu on Menu Bar, click **Register**. A new dialog appears.
3. From the **Register** dialog, select **Offline Registration**. Click **OK**.
4. An **Offline Registration** dialog box will appear displaying **Registration ID** in its respective field.

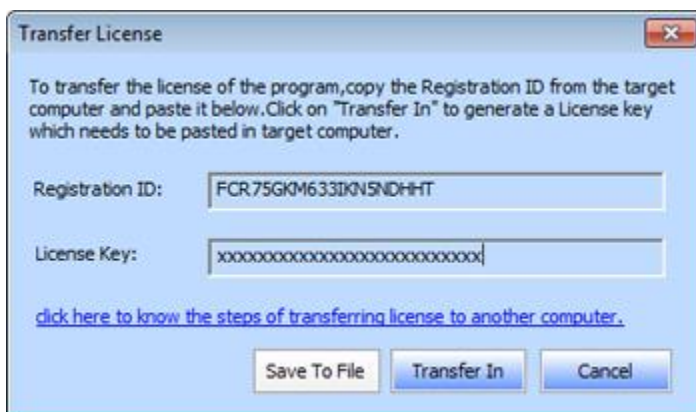

## On Source Computer:

1. Run registered version of **Stellar Phoenix Mailbox Exchange Recovery** software.
2. In **Registration** Menu on Menu Bar, click **Transfer License** button.

3. Copy the **Registration ID** displayed on the Target Computer in the field of Registration ID on the Source Computer.
4. To get your License Key, click **Transfer In** button on Source Computer. This will generate a License Key.

5. You can also save the License Key generated on the source computer. Click **Save To File** button to save the Registration ID and the License Key. In **Save As** dialog box, select the location where you want to save the details. Click **Save**.
6. ' *License Key saved successfully* ' message is displayed after the saving process is completed successfully. Click **OK**.

This will deactivate the product on Source Computer and you will no longer be able to use the software anymore on this computer.

#### **On Target Computer:**

1. Type the **License Key** which you have generated on the Source Computer in the provided field of License Key.

2. Click **Register** to complete the activation process.
3. ' *Activation Completed Successfully* ' message is displayed after the process is completed successfully. Click **OK**.

# Updating the Software

Stellar releases periodical software updates for **Stellar Phoenix Mailbox Exchange Recovery** software. You can update the software to keep it up-to-date. These updates can add a new functionality, feature, service, or any other information that can improve the software. Update option of the application is capable of checking for latest updates. This will check for both latest minor and major versions available online. You can easily download minor version through the update wizard. However, the major version, if available, has to be purchased. While updating the software, it's recommended to close all the running programs. Note that demo version of the software cannot be updated.

## To update Stellar Phoenix Mailbox Exchange Recovery:

- Click Update Wizard icon from **File Menu**.
- Stellar Update Wizard window opens. Click Next. The wizard will search for latest updates, and if it finds any new updates, a window will pop up indicating its availability.
- Click Next and the software will download the files from the update server. When the process is complete, the software will upgrade to the latest version.

## Live Update may not happen due to following reasons:

- Internet connection failure
- Updates are not available
- Unable to download configuration files
- Unable to locate updated files or version
- Unable to locate executable file

**Note:** *If a major version is available, you need to purchase the software in order to upgrade it.*
