

Stellar Phoenix Repair for Zarafa

Version 1.0

Installation Guide

Overview

Stellar Phoenix Repair for Zarafa is a tool designed to recover user's mailboxes and data (mails, calendar, contacts, notes,entries etc) from corrupt Zarafa Server files. Using powerful algorithms, it thoroughly scans files to recover all possible data without deleting or modifying original data. Even heavily damaged files can be optimally repaired and restored with this software.

Key Features:

- Recovers mailboxes and data (mails, calendar, contacts, notes,entries etc) from corrupt '**Zarafa**' Server (.frm and ibdata1) files.
- Recovers accidentally deleted mailboxes and data (mails, calendar, contacts, notes,entries etc).
- Saves recovered files in the same format.
- Recovery Log.
- Supports Windows 8/ 7 / XP / Vista.

Installation Procedure

Before beginning installation, make sure that the computer meets minimum system requirements.

Minimum System Requirements

- **Processor:** Pentium Class
- **Operating System:** Windows 8/ 7 / XP / Vista
- **Memory:** 1GB RAM
- **Hard Disk:** 50 MB of Free Space
- **MySQL** should be installed on the machine

To install the software, follow the steps:

1. Double-click '**StellarPhoenixRepairforZarafa.exe**'. A setup dialog box is displayed.
2. Click '**Next**' to continue. '*License Agreement*' dialog box is displayed.
3. Select '**I accept the Agreement**' option. Click '**Next**' to continue.
4. Specify location where installation files are to be stored. Click '**Next**' to continue.
5. Select the folder where files are to be stored. A default folder is suggested in '*Select Start Menu Folder*' box. Click on '**Browse**' to select a different location. Click '**Next**'.
6. In '*Select Additional Tasks*' dialog box, choose the check box as per your choice. Click '**Next**'.
7. Review entries. Click '**Back**' if you want to make any changes. Click '**Install**' to start installation.
The Installing screen shows the installation process.
8. After completion of installation process, '*Completing the Stellar Phoenix Repair for Zarafa Setup Wizard*' screen opens. Click '**Finish**'.

You can clear '*Launch Stellar Phoenix Repair for Zarafa*' check box to stop automatic launch of the software.

Stellar Phoenix Update Wizard

Stellar Phoenix Update Wizard keeps your Stellar Phoenix applications updated. Update option in the application is capable of checking for latest updates. This will check for both latest minor and major version available online. You can easily download minor version through the update wizard. However, the major version, if available, has to be purchased. While updating the software, it's recommended to close all running programs.

To start 'Stellar Phoenix Update Wizard':

1. In the '**Stellar Phoenix Repair for Zarafa**' main screen, click '**Update**'  icon on the tool bar.
2. '*Stellar Phoenix Update Wizard*' window pops up. Click '**Next**' to proceed.
3. The wizard will start searching for latest updates and if it finds any new version, a window pops up indicating the availability.
4. Click '**Next**', the software will start downloading update files from the server. When the process is complete, the software will upgrade to latest version.

Live Update may not happen due to following reasons:

- Internet connection is not available.
- There are no updates available on the update site

If major version is available, you have to purchase the software to upgrade it.

How to Order?

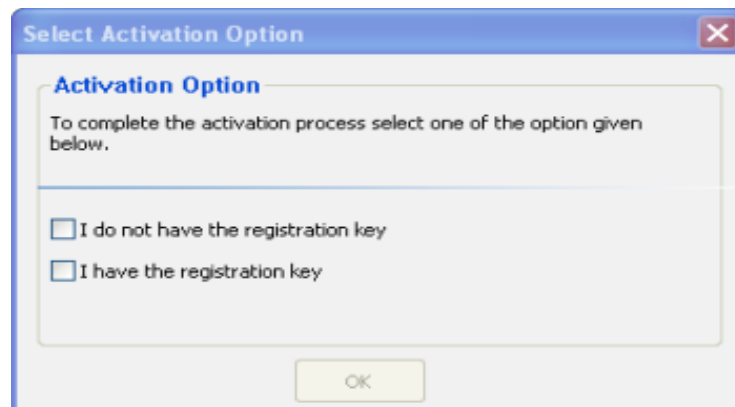

The software can be purchased online. For price details and to place an order, please visit [here](#).

Once the order is confirmed, a pre-paid serial # will be sent through e-mail, which would be required to activate the software.

Alternatively, if demo version is installed on your computer, you can click the '*Buy Now*' link in '**Purchase**' dialog box. Click '**Purchase**'  button on the application tool bar to open '**Purchase**' dialog box.

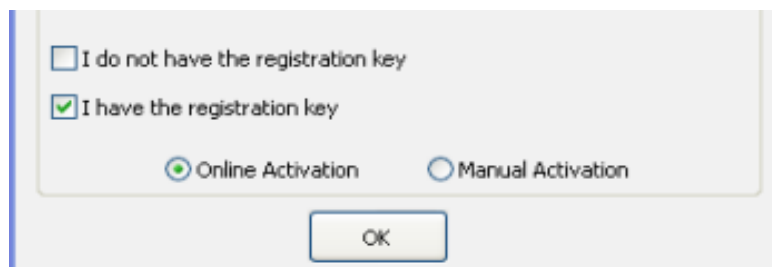

How to Register?

To register the application, click '**Activation**'  icon on the main user interface to open '**Select Activation Option**' dialog box.

Selecting '**I do not have a registration key**' option will automatically take you to 'Buy Now' page where you can purchase the product.

Selecting '**I have the registration key**' option after purchasing the product will give you two options:

If '**Stellar Phoenix Repair for Zarafa**' is downloaded from <http://www.stellarinfo.com/email-repair/zarafa-server-recovery/buy-now.php> (i.e., ESD version), for the full functionality, the product must be activated using Serial Number (received through e-mail after purchasing the product) over Internet.

Online Activation

Once the serial key (pre-paid key received through email after purchasing the product) is received, activate the product instantly over Internet.

To activate the software,

1. Select '**Online Activation**'. You get a software license warning message.
2. Click '**Continue**', the software checks for the Internet connection. Once it is connected to the internet, software registration wizard will appear. Click '**Next**', to continue further with the registration process.
3. In the window that appears, type the *Serial number* (received through email after purchasing the product) in the text box.
4. Click '**Next**' to continue. The software would automatically communicate with registration server and would activate the software.
5. Click '**Finish**', to complete the activation process.

If Internet connection is unavailable, user can also register the software by sending e-mail.

Activation using Email

While activating the product over Internet, if the software could not communicate with the server, an error message will popup. Click '**OK**' to register the product through email.

- Click '**OK**', the registration wizard for sending the authorization request will appear.
- Leave the option unchecked and click '**Next**' to continue.
- In the next window, type the email address in the text box to which the unlocking code is to be send. Once the email address is entered, click '**Next**'.
- The email address verification window will appear. Click '**Yes**', if email address is correct.

The software automatically launches the default email client, and sends an email containing the unique site code with registration request to the registration server.

If the registration wizard could not launch the default email client, error message will appear.

- Click '**OK**', to continue the process manually.
- Registration wizard window appears.
- Open an email client (like Outlook Express, MS outlook, Eudora etc) and create a new message.
- Place the cursor in the box labeled '**TO**' and press '**CTRL+V**' to paste address. If it does not work, right click on the '**TO**' box and select '**Paste**' from the popup menu. The TO box will contain the address.
- Click '**Next**', a window will appear.
- Now place the cursor in the box labeled *Subject* in the same message window and paste (method same as above) the text. The Subject box will now contain the text.
- Click '**Next**', do the same process mentioned to paste the encrypted text content in the body of the message.
- Click '**Next**' to finish the procedure and send the email.

Make sure the content of the email sent for automatic authorization have the details as mentioned above. If they are incorrect, the server will reject the mail registration request.

- If the process is successful, registration server would send an email containing unlocking code/site-key.

In case wizard is not able to launch default email client, it automatically shifts to the manual process for sending the activation authorization request.

Manual Activation

- Click '**Activation**' icon  on the main user interface. '**Select Activation Option**' dialog box opens.

- Check the I have the registration key check box and select Online Activation. Click OK, and then click Yes.
- In the Welcome to Stellar Phoenix - Electronic Software Registration dialog box, click Cancel. **In the 'Stellar Phoenix Repair for Zarafa' dialog box, click 'Yes'.**
- In the Manual Registration screen, enter any number or text in the **'Enter Serial number'** text box. Click **'Next'**.
- A text file with name PHX_REG.txt will be saved at your desktop. Click Finished.
- Send the PHX_REG.txt file to e-mail address - support@stellarinfo.com. You will get a serial number for manual activation.
- After verifying the details, unlocking code/site key will be sent through email.

To register manually after site key is received

To activate the product manually (after receiving the site-key):

- Click **'Activation'** icon  on the main user interface. click Register button. **'Select Activation Option'** dialog box opens.
- Check *'I have the registration key'* checkbox and select **'Manual Activation'**. Click **'OK'**.
- Enter the site key, received through e-mail, in the *'Enter Site Key'* textbox.
- Click **'Validate'**.

All Manual registration process will take maximum of one business day for completion.

If the software is installed using the product installation CD (i.e., BOX version), hardware lock  is mandatory for the functioning of the software which is available with the software kit.

Launching the Software

To start '**Stellar Phoenix Repair for Zarafa**'

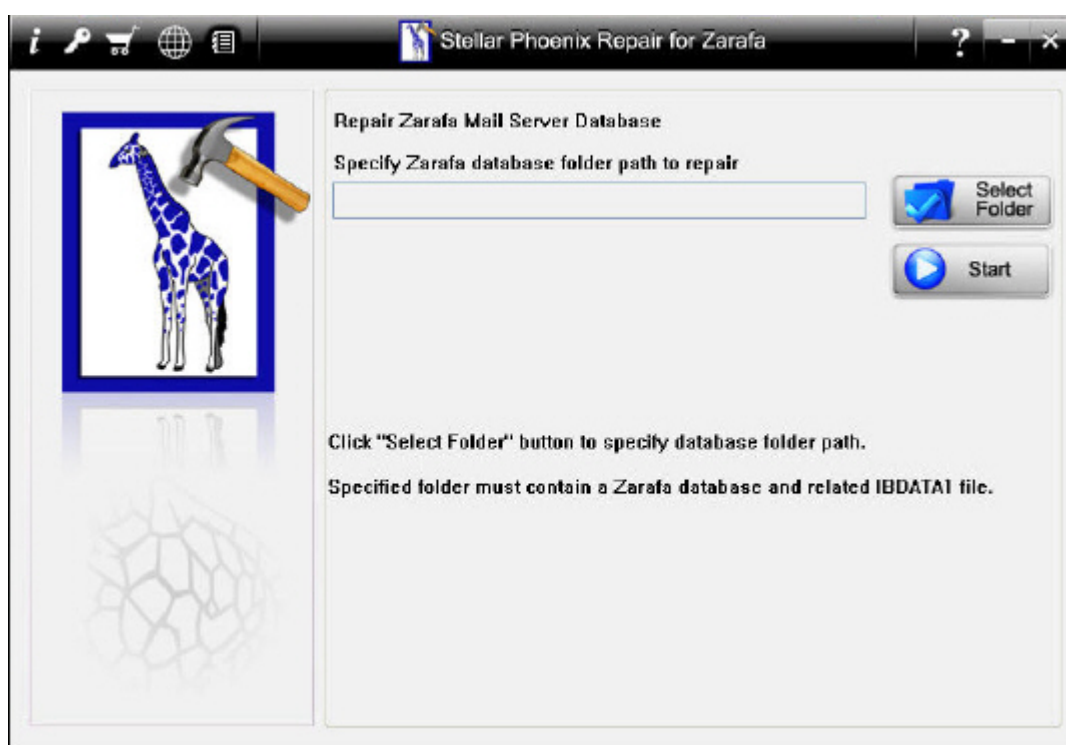

Use one of the following:

- Click '**Start**' -> '**Programs**' -> '**Stellar Phoenix Repair for Zarafa**' -> '**Stellar Phoenix Repair for Zarafa**'.
- Double click '*Shortcut*' icon on the Desktop.
- Click '*Quick Launch*' icon on the Taskbar.

User Interface

'Stellar Phoenix Repair for Zarafa' software has a very simple and cool looking Graphical User Interface. Yet it contains all the features required for complete recovery of mails from corrupt 'Zarafa' server.

Upon launching the software, main user interface will appear as shown below:

Uninstall the application

In two ways you can uninstall '**Stellar Phoenix Repair for Zarafa**'.

- Click '**Start**' -> '**All Programs**' -> '**Stellar Phoenix Repair for Zarafa**' -> '**Uninstall Stellar Phoenix Repair for Zarafa**'. Follow on screen instructions to completely remove the software, including registry entries from your computer.
- Click '**Start**' -> '**Control Panel**' -> '**Add Or remove Program**'. Select "**Stellar Phoenix Repair for Zarafa**" entry from the displayed list and click '**Change/Remove**'. Follow on screen instructions to completely remove the software as well as registry entries from your computer.
