

Stellar Phoenix Lotus Notes Recovery

Version 2.0

Installation Guide

Overview

Stellar Phoenix Lotus Notes Recovery is a complete recovery solution for damaged Lotus Notes (NSF) files. Software repairs corrupted NSF files and restores all contents of a NSF file. An intensive scan of the NSF file extracts all the data files, repairs it and recovers to a new usable NSF file.

After the recovery of NSF file the software shows content of NSF file as original. All folders that were existing in the original NSF file will be shown with their contents in the two-pane structure. This means folders are also recovered by the software.

Key features:

- Enables user to view messages headers
- Recovers e-mails, attachments, calendar entries, contacts, To Do and journals from damaged NSF files
- Recovered file will be saved as .nsf file on any (including network) disk visible by the host operating system
- Show preview of e-mails, calendar entries, contacts, To Do and journals of NSF files
- Supports Java Applets and OLE objects

Limitations:

- Stellar Phoenix Lotus Notes Recovery does not support encrypted NSF files (Lotus notes V 8.0 or higher)
- Application only supports the recovery of Mail, Personal Journal and Personal Address Book templates
- Supports only .nsf files created from default .ntf files. Customized .nsf files are not supported
- Images in mail body are not shown in preview
- No support of preview of Calendar and To Do in full version but the support is given in demo version.

How to Register?

If the software is downloaded from <http://www.stellarinfo.com/email-repair/lotus-notes/buy-now.php?Order> (i.e., ESD version), for the full functionality, the product must be registered using Serial Number (received through email after purchasing the product).

If the software is installed using the product installation CD (i.e., BOX version), hardware lock[] is mandatory for the functioning of the software that is available with the software kit.

After purchasing the software, you will receive the serial number, which is required to register the software. The serial number will be verified during the registration process and if the serial number is valid then the software will be registered.

The software can be registered in different ways. These are the methods by using which you can register the software:

[Registration Over internet](#)

You should have the serial number, which is received after purchase of the software. On entering the serial number it is verified by license server and on verification the software will be registered.

[Manual Activation](#)

You will need to generate a PHX_REG.txt file and mail the .txt file to support@stellarinfo.com. After verifying the serial number and purchase details of the software, the site key will be delivered to you at your email address. This site key is used to register the software manually.

Using Email

If the registration of the software by using Online Registration or Manual Activation is not successful then you can still register the software by using email. An email will be send to online-register@stellarinfo.com either automatically or manually by the Stellar Phoenix - Electronic Software Registration wizard. The software will be registered automatically, when Internet connection is available on your computer.

Registration Over Internet?

To register the software over Internet:

- On the Activation menu, select **Activate Stellar Phoenix Lotus Notes Recovery Online**. Click **Yes**.
- In the Welcome to Stellar Phoenix - Electronic Software Registration wizard, click **Next**.
- Type the Serial number (received through email after purchasing the product) in the Serial number text box. Click **Next**.

- The software would automatically communicate with license server and register the software. Click **Finish** to complete the registration process.

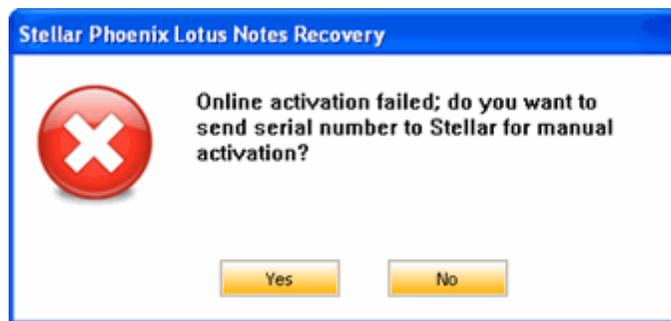

You can generate the PHX_REG.txt file manually by starting the online activation. View [manual activation](#) topic to perform the process of generating PHX_REG.txt file.

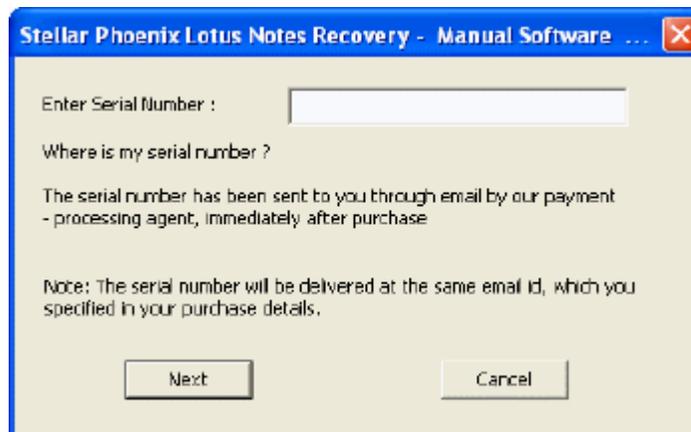

Manual Activation?

To register the software by using manual activation process:

- On the Activation menu, click **Activate Stellar Phoenix Lotus Notes Recovery Online**. The Warning dialog box opens, click **Yes**.
- In the Welcome to Stellar Phoenix - Electronic Software Registration wizard, click **Cancel**.
- The Stellar Phoenix Lotus Notes Recovery dialog box opens, click **Yes**

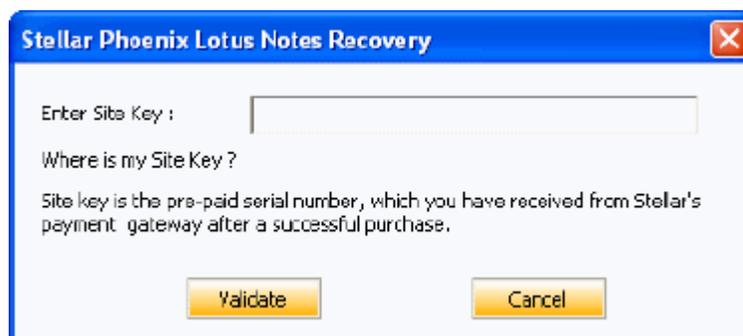

- In the Stellar Phoenix Lotus Notes Recovery - Manual Software Registration screen, type the serial number, which is received after purchase of the software, in the Enter Serial Number textbox. Click **Next**.

- A PHX_REG.txt file will be created on desktop. Email the text file to the email support@stellarinfo.com address. Click **Finished**.
- After verifying the purchase details, you will receive the site key, at your email address that is specified during purchase of the software, that is required to register the software by using manual activation.
- When you receive the site key, open Stellar Phoenix Lotus Notes Recovery, on the Activation menu, select **Manual Registration**.

- In the Stellar Phoenix Lotus Notes Recovery box, type the **site key**, which is received after sending the PHX_REG.txt file. Click **Validate** to register the software.

The image shows a dialog box titled "Stellar Phoenix Lotus Notes Recovery" with a blue header and a red close button. The dialog contains a text input field for the "Site Key". Below the input field, there is a question "Where is my Site Key?" followed by an explanatory sentence: "Site key is the pre-paid serial number, which you have received from Stellar's payment gateway after a successful purchase." At the bottom of the dialog, there are two buttons: "Validate" and "Cancel".
